Nevada City Nugget

VOLUME III, NUMBER 39 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA, THE COUNTY SEAT PAPER AUGUST 12, 1929

100 TON MILL IS BEING PLANNED ROYAL COMPANY

With the acquiring of a large number of mining claims from Harry D. Ramsay, the Royal Development Company, which is operating the Royal Mine at Hodson in Calaveras county, is making preparations to enter the Nevada county field on a large scale. The properties taken over are located in the Meadow Lake district about eight miles from Cisco.

The properties affected in the transfer from Ramsay are the Eagle Quartz, Nos. 1 2 3 4 5 6 7; Free Milling, Mother Lode, White Quartz, Falcon and Grizzly Nos. 1 and 2, located on the south side of Old Man Mountain. There is also a river mill site at the base of the mountain. Most of the claims are locations with the assessment work fully done on them.

It is the intention of the company to erect a 100 ton selective flotation concentration plant on the property as the first unit of a 1000 ton plant to be built at a later date, as the result of the examination of Messrs. Check and Hamilton recently which showed that the ore in the Number 3 tunnel will average around $17.00 per ton, of which this tunnel has at the present time about 800 feet of backs. The concentrates from the preliminary tests by the Pan American Engineering Corporation showed 6.72 ounces gold, 22.08 ounces of silver and 23.4 per cent copper.

The officers of the Royal are well known in the mining industry. H. E. White of Chicago is president. Fletcher Hamilton for ten years California state mineralogist, is vice president and general manager. Mr. Hamilton also gained distinction in having been appointed by the 64th Congress to represent a Senate investigation of the gold and silver industry at that time. Elliott Check, a well and favorably known engineer who was associated with the Old Flotation Limited interests and the Anaconda Copper Company is a director,as is Harry D. Ramsay, superintendent of the company's operations. William F. Stoneback is secretary and treasurer.

Superintendent Ramsay telegraphed Friday that in the No. 1 tunnel on the Eagle vein, the shoot of ore is 20 feet wide anr sampling across the entire 20 feet shows coarse gold in the pannings..

The Meadow Lake district has been one of the mining puzzles with old methods of metallurgy. The gold in this district occurs in auriferous sulphides in fissure veins. Meadow Lake lies in a shallow draw on a ridge trending generally in a norhtwesterly direction, and has an elevation of some 7300 feet. The ridge rises to an elevation of 8498 feet at English Mountain, 7800 at Old Man Mountain and 7860 at Signal Peak. The greater portion of the area is made up of granidiorite. The granidiorite is in contact with the Blue Canyon formation on the west, a strip of Sailor Canyon formation on the north west, and east of the latter is an area of diabase two miles in extent making up English Mountain.

A series of veins is exposed between Summit City and Old Man Mountain which is very different in its character from the typical gold quartz veins occurring in Califonia. They strike to the north east, being fissure veins, often without defined walls. The ores carry gold, pyrite, arseno-pyrite and zinc blends. The gouge consists of black tourmaline and epidote.

The Royal Development Company is a Nevada corporation with a capital stock of $750,000, with a stock issue of three million shares with a par value of 25c. The San Francisco offices are in the Russ Building.

The Empire Mines and Investment Company is retiring over 90,000 shares of corporation stock, the distribution of cash being nearly $3,600,000. The assets on July 31st were reported in excess of fifteen millions.

Ignition Parts and Accesories at Miner's Foundry. 24tf

GRAYSTONE MINE NOW BEING DEVELOPED

The Graystone mine south of the Twin Sister is now being opened up by Charles Hegarty its owner. A small crew is engaged in opening up the old tunnel. The coming of electric power to that section will mean a great deal of development work started the coming year.

SUPERVISORS ALLOT LARGE EXHIBIT SUM

On representation from the Nevada County Farm Bureau that the original sum allotted for the placing of a county exhibit atthe coming state fair, the supervisors last week raised the ante to $2500 which should provide an excellent exhibit. M. D. Loney of Barnegat Ranch made a convincing talk to the board and promised an excellent horticultural and agricultural exhibit. Mr. Loney who is in charge of those features of the exhibit, has delegated Aubrey N. Wisker to secure the specimens and he is busy with the task. The last exhibit which was in charge of Dan F. Norton was a knockout and brought home some fine prizes.

H. W. Griffith, who is arranging the mineral display states that he is receiving fine cooperation from the mining interests.

OWENBY GOES TO LOS ANGELES ON BUSINESS

J. V. Owenby, general manager of the Nevada Monarch Mining Company, operators of the Bald Mountain and South Fork properties at Forest ,has gone on a business trip to Los Angeles. A recent guest of the management was B. X. Dawson of New York City, who was much taken with the prospects of large production at the company's propertes.

FIRE DELEGATES ELECT NEW SET OF OFFICERS

In a meeting attended by the full board, the fire delegates got under way Thursday night for a new year under new officers. Forrest Penrose, the newly elected department chief, was seated as chairman of the board. Ray Wilde was selected as secretary.

The delegates propose to put in a busy year. One of the improvements to be undertaken at once is the refurbishing of the Piety Hill and Prospect Hill hose houses which have fallen more or less into decay, together with the equipment. Serviceable hose is to be put on the reels and everything put shipshape.

LEITER INSTALLS NEW RADIO SERVICE SHOP

Charles W. Leiter has installed a new thing in Nevada City in the form of an exclusive radio studio in the Elks Building which promises to become quite a popular spot. Artistically fitted up in studio style. with floor coverngs, the place is at once an inviting one.

A full line of Atwater Kent models for which Mr. Leiter is dealer will be carried in stock and demonstrated. A complete stock of tubes, batteries and accessories will be on hand and servicing and repairing of all types and makes of radios will be done.

A fully equipt repair shop has been fitted up in connection with the studio and guaranteed work will be done by expert help.

Charles Cory, who has spent the past ten years in experimental radio work, rebuilding and repairing work, will be in charge of the studio and repair department and will be associated with Mr. Leiter in the conduct of the business.

Everyone is cordially invited to visit the studio, whether in the market or not for a set.

The drink business must be good over in Truckee as one purveyor of joy juice was held up for $800 the other night.

LEDGE LOOKING NEAR IN TWIN SISTER TUNNEL

The big No. 3 tunnel at the Twin Sister mine which is now in 1000 feet looks to be drawing near to the ledge wall of the rich shoot which was uncovered in the No. 2 tunnel and it is not expected that it will take much distance to cut the ledge which is the objective of the present work. With the ledge reached, a station will be cut and a raise run to connect with the upper workings and preparations made for the extraction of ore as with the large amount of backs opened up there is plenty of ore in sight for steady milling for months to come.

Several of the company stockholders were at the property the past week including Mr. Cooks of Los Angeles, Dave Rosasco and family of Healdsburg and Charles Miller of Geyserville.

A group of the Gold Lead stockholders visited the property yesterday. The Gold Lead people have had a tunnel going through the Twin Sister ground headed fo their gravel channel.

The tunnel work is progressing about 2½ feet per day on a single shift. The combination of water power and gas engine gives sufficient power to operate the compressor for the drills. Poles are being cut for the branch power line to connect with the new line from Alleghany to the Spanish mine. The branch line will be one third of a mile long.

AMERICAN FLAG LOOKS GOOD SAYS GRIMES

The crosscut tunnel being run at the American Flag mine to intersect a large ledge was in over 300 feet on Saturday and making good progress, reports James Grimes, one of the owners, who has been at the property for some days on an inspection trip. Since the 1st of July over 60 feet has been run. The ledge should be cut shortly and will give 500 to 600 feet of backs.

Work of drifting east an another ledge is shortly to be undertaken. The ledges all appear to carry good values and are sulphide ore or in a sulphide zone.

PUBLISHERS AUXILIARY HAS SOME KIND WORDS

A few weeks ago A. A. Willoughby, publisher of the Nevada City Nugget, put on a special mining number. The edition is printed on book paper with a colored cover and covers the extensive mining industry in Nevada City and vicinity. A directory of Nevada county mines, together with a history of the development of the mining industry, are items in the special number. The publisher is to be congratulated on his enterprise and the particularly attractive appearance of the edition. —Publisher's Auxiliary, Chicago.

DIADEM COMPANY PLANS OPERATIONS AT FOREST

The Diadem properties in the town of Forest are being reopened by the Diadem Mining Company and considerable development is being planned. The properties adjoin the North Star and Amethyst mines on the west. J. M. O'Rourke is superintendent.

ELKS AT DOWNIEVILLE

Nevada City Elks lodge is planning a pilgrimage to Downieville the coming month. the exact date depending on the reopening of the highway between Downieville and Sierra City, so that the Plumas county bretheren can make the trip. Plans were laid at the meeting of the lodge on Friday night. Horace A. Curnow will head the committee.

W. P. Calkins, who formerly with his brothers edited and owned the Nevada City Miner-Transcript passed away recently in Colorado.

MINING LOCATIONS ARE PLACED COUNTY RECORD

Mining localtions filed for record the past week are asfollows:

Basalt No. 3, Basalt No. 4, and Basalt No. 5, placer claims in Sec. 32, T18N R17E near Prosser Creek and Truckee river by Arthur B. Foote and Jeanette H. Foote.

Grass Valley quartz claim in Grass Valley Mining District adjoining Allison Ranch Stanton claim by Albert Morateur.

Alta quartz claim in Washington Mining District in S½ Sec 31, T18 N R11E by James Bradley.

HIGH GRADE STRUCK AT BOREHAM MINE

Cutting of a rich shoot of high grad eore just twenty feet from the shaft on the 200 level was accomplished at the Boreham mine on Banner Ridge south of town last week. The shaft which was sunk to a depth of 200 feet was full width in ore the last 40 feet and the drift which was cut from that depth could not carry the full width of the ledge.

The ore encountered is of the specimen variety and leads to the conclusion that a fine pay shoot is ahead. The ledge at the surface prospects well. The drift runs west from the shaft toward the adjoining Merrimac ground which showed rich values at the time it was worked.

The property is equipped with a two 1250 pound stamp mill. A concentrator is at present being installed prior to active milling operations. The site is admirably adapted for operations. The mill will be used during the development work which will be pushed as soon as the milling equipment is ready for use.

The property is being developed by the Grass Valley Boreham Gold Mining Company under a lease and bond. A. O. Witte of Los Angeles is president and general manager. Austin Boreham is superintendent in charge of operations.

GRACIE SHAFT SINKING DOWN TO THE 300 LEVEL

Shaft sinking operations at the Gracie mine reached the 300 foot level Saturday. A pump station will be cut at this level and sinking will be resumed for another 50 feet, at which point drifts will be run to open up the fine pay shoot uncovered on the upper levels. Donald Woodrum of San Francisco is heading operations. R. N. McCormack is superintendent at the property.

GOLD HUB MINE SEES DEVELOPMENT WORK

Operations at the Gold Hub property north of Forest and near the Ruby mine, are progressing steadily. Drifts are being run, the 42 level drift now being in 500 feet and 100 level drift, 600 feet. The property is an extensive one and includes also the Mohawk properties. A. D. Hinton of Oakland is superintendent.

IRRIGATION DISTRICT IN LOSS OF COURT DECISION

The irrigation district was loser in the suit brought against the Yuba River Power Company in the supreme court over the waters of the Middle Yuba. But as the Pacific Gas now owns or will, the Yuba River Power, it is hardly to be supposed that it will do much fighting against the district taking the water and putting it over into Lake Spaulding for them as it is doing the other half of the water now being permitted for diversion. Meanwhile the people on the San Juan Ridge are having to carry their drinking water in buckets from whatever springs they can find this summer. The gardens and the crops can suffer..

Mr. and Mrs. James Dolan and his brother, Arthur Dolan, and family spent a day at Dutch Flat recently.

ENGLEBRIGHT VISIONS GREAT MINING HE SECURED LARGE APPROPRIATIONS

In an interview granted The Nugget today, Congressman Harry L. Englebright envisioned the return of gold mining in the next few years in this section to some form of its early glory from an industrial standpoint, that is, in the point of larger operations on a scale far eclipsing anything at present undertaken. Legislation enabling the return of placer mining under proper safeguards enacted within the next few years by both state and federal governments would be of inestimable help in bringing some of this activity into being.

"From what I have learned since my recent return from Washington the past month", stated Mr. Englebright, "it looks to me as if the gold mining sections of California were in for a real revival of activity that will bring the industry back to something of its former status when it gave employment to many thousands of hardy men and spread golden prosperity over the Pacific Coast as no other industry has ever done or ever will do. Due to the marked interest that has been shown in the gold mining industry, I secured in the last Congress an increased appropriation of $130,000 for the geological survey which will be used in mapping the gold regions of California which will prove of inestimable service to the industry. Another appropriation secured was $30,000 for the printing of literature on the Mother Lode and Alleghany districts and which has been meeting a large demand from mining capital over the United States. For the Bureau of Mines I secured an appropriation of $125,000 for mineral mining investigations and an additional $20,000 especially for the study of mining methods and costs of operations which should prove of great benefit to mining operators.

"These increased appropriations are bound to be very helpful to the gold mining industry in view of the fact that none such have been available during the past 15 or 20 years. The determining of the cost of operations is an entirely new study for the bureau of mines and will open up a large field for research work. These appropriations shows that what has been accomplished the past year in bringing to the attention of Congress the needs of the gold mining industry. Hundreds of millions of dollars have been spent on behalf of other lines of activity but the mining industry has been allowed to languish because no organized effort had been exerted in its behalf in the way of securing funds for investigations.

"What has been needed in this district has been the investment of large capital which can operate on a tremendous scale which is the trend of modern business today. The copper, lead, zinc, and iron miners have been carrying on for some years the idea of lage consolidated development. The same thing is now being applied to the gold mining industry. The costs of operations today are such that it requires a large capacity output in order to hold down the overhead expenses which very often cause the failure of smaller developments. We now have the start of large developments in Nevada county in the world wide Newmont interests taking over two well known Grass Valley properties. The large developments which have been under way by Fred W. Bradley in the Washington section are of particular importance to this district. Mr. Bradley is one of the outstanding successful mining operators of the world and is connected with some of the largest operations in Alaska and the United States. Anything that he undertakes he makes a success of.

"We have other large corporations which are looking over this field. Large developments are about to take place in the Mother Lode counties of El Dorado, Calaveras, Amador, Tuolumne, and Mariposa, which will of course react favorably in other mining sections of the state.

"The movement to organize a state wide mining organization is of vital importance to the industry. Practically all other lines of industry have their trade organizations to speak for them with reference to legislation and to advance and promote the welfare of their particular industry. The gold miners for many years have been in dire need for an organization that would be representative of all phases of gold mining. The organization to be created should receive the support of all companies and individuals interested in gold mining. Much can be accomplished by an effective organization.

"Renewed activity in gold mining means renewed activity in all other lines of business. When the gold miners were enjoying prosperity all California was sharing in it. Mining prosperity is the very best form of prosperity that California can have because it is the creation of new wealth, and every one dollar of gold mined and produced secures five dollars worth of new capital for other lines of development".

TIGHTNER COMPANY TO PLAN REORGANIZATION

The reorganization of the Tightner Mines Company may follow the assessment of $36 per share levied against the 100 shares of outstanding stock which will be used to discharge several thousand dollars worth of debts. This company paid dividends of $4,350 per share on a total of $435,000 on its stock during its producing days and its subsequent sale of the Tightner ground at Alleghany to the 16 to 1 interests. In addition $80,000 was paid to shareholders of 80 shares of preferred stock. In selling to the 16 to 1, the Red Star holdings lying north of the Gillespie Osceola and Colorado properties were retained and form a large pece of attractive ground. It is stated that 75 percent of the assessment is already in.

E. L. Oliver of San Francisco is president, Bert Austin, vice president and R. E. McCullough, secretary of the Tightner company.

COUNTY TAX RATE GOES UP SEVERAL KOPECKS

According to the tentative tax schedule adopted Saturday by the board of supervisors, the rate will be around 12 cents higher per hundred than last year.

Under the tentative schedule, the county rate in Nevada City would be$4.10 per hundred, $4.20 in Grass Valley and $5.70 in Truckee. If the Promotion Board request were granted for a $5000 appropriation, the rate would have to go still higher as it is not included in the above figures. The rate will not be finally set until September 1st.

AUGUST RAPP PASSES

Milo Lodge, Knights of Pythias, offers have received word of the Saturday in Vancouver of an old member, August Rapp, who left here 21 years ago. He was formerly in business here, having bought out the Billy Andrews store.He was a brother in law of Alphonse Hartung. The funeral was held today.

GRAND MASTER TO VISIT

Gustav A. Hutaff of Dunsmuir, Grand Master of California Masons, will pay an official visit to this and the Placer county districts on Wednesday, August 21st. Many Masons from Nevada City and Grass Valley are expecting to attend on that occasion. A few days afterwards the Grand Lodge will be convened at Camptonville for the dedication of the Pelin Monument on Saturday, August 31st. Past Grand Master George L. Jones will be in charge of the latter ceremonies.

ATTENTION, MASONS

Second degree will be conferred tonight. All members going to Auburn Wednesday night for Grand Master's visit should notify Master or Secretary so that all brehren going may be assured of transportation.

J. F. Senger, Sec. J. W. Darke, W. M.

FRENCH CORRAL ITEMS

FRENCH CORRAL, Aug. 10, (Special to The Nugget)—Well, it seems we are to be treated to more hot weather. The past three days have bought out complaints. When 90° in the shade is registered we must call it past comfortable. But, Oh! the luscious fruit that is ripening! So it seems there is always something to be thankful for, no matter how things go.

For the past week Mr. Capp of Rough and Ready, who has charge of the road work that is being done near Sweetland, has a force of men busy graveling the road from Sweetland to French Corral. M. O'Conner, E. Collins, L. Brown, S. Housel, C. Browning are engaged in this work. So when Yuba Pass reopens,tourists will take pleasure in coming over our good road.

Speaking of Yuba Pass reminds us that old time friends came Saturday evening, who said theirs was the last machine to go through the Pass Everything was in readiness for blasting. and had they been a few minutes later they could not allow them to go through. This party consisted of old time residents of French Corral, Dr. and Mrs. Albert Villain and their son, Dr. Gerald Villain, (dentist) and Dr. A. Villain's sister, Mrs. Bertha Woodman. It is 24 years since Dr. visited his old home town. Their old home, built by his father, the late J. B. Villain, still stands and he and his sister lived over again childhood's days, in going through the rooms; and a drink of water from their splendid old well. They recounted many incidents of their younger days. One thing that filled them with regret however was to find a giant yellow pine, that stood out near the oldres erfoir on their place, and is probably the oldest tree of its kind in this vicinity, slowly dying. It has been attacked by the destructive pine beetle or weevil. The party returned to their home in San Francisco, Sunday.

Speaking of the pine beetle, we think it strange more active work is not being done in fighting this destructive insect. Especially now, when this turpentine industry has been started and pine trees will be valuable. It is nearly fifteen years since it appeared in this vicinity and many pines were cut down and burned in order to get rid of it.

W. P. Clerkin came down from Pike City Saturday and returned to that place Monday.

The regular meeting of the S. J. R. W. A. was held in San Juan Sunday. There was a good attendance, as very important business is on hand at present and the association is working earnestly to have matters adjusted. Vice President W. P. Clerkin presided, as our chairman, Sam McCullough, is still quite ill.

Mr. and Mrs. Fred Conner of Sacramento were visitors at their Sweetland home Saturday and Sunday. Mr. Conner is chairman of the ways and means committee in the Water Association and shows a deep interest when he and his wife faithfully make a trip from Sacramento to be present at the meetings. One could hardly believe that such faithful friends could ever meet with unkind dealings, but we learn that when they came to their home in Sweetland someone had forced an entrance and relieved them of bedding and provisions. We cannot believe that anyone in our midst would be guilty of this, but as we have learned of other acts of this kind, think it would be well to keep a watch out for thieves.

J. W. Culver made a trip to Nevada City Monday.

Stanley Byce of San Jose was a visitor Monday.

W. E. Moulton made a business trip to Marysville Monday.

Mr. Rhodes of Smartsville called on friends in French Corral Tuesday. He was reutrning from a trip to the mountains.

Alfred Kneebone of Bridgeport was a Tuesday visitor. He made a trip to place signs advertising the Bridgeport Resort. This resort has a large patronage and those who visit once are pleased to come again. Mr. and Mrs. Kneebone are very pleasant people to know, and are untiring in their efforts to serve their patrons. Bridgeport is an ideal spot and is reminiscent of the very early days. Many things about the place recall that early period, which dates back to the early '50ties. The covered bridge across the South Yuba, which dates back to 1862, and still in a state of perfect preservation. We believe there is only one other like it in our state. Come to the Bridgeport for a good time.

P. O. Stanrdberg of Nevada City and Mr. and Mrs. Milton G. McMurray of Santa Paula, were Wednesday visitors. Mr. McMurray's grandparents were early residents of French Corral, and his father was born here, and was a pupil of the French Croral school. While he and his brother and sister were yet of school age, they moved to San Francisco. He has always had a desire to see the old home place of his father's childhood. But alas, for the ravages of time, for the sion of mining, he found but little of what was here in his father's time. It proves however, that parents tell their children of the old-time places until they have a very vivid mind-picture of them, and are always eager to see how near they have come to picturing the scenes correctly. Mrs. McMurray's father Frank Reed, was also a native of the San Juan Ridge, and his parents, the late Mr. and Mrs. F. Reed, the late Mr. and Mrs. F. Reed, spent most of their life in the town of North San Juan and are laid to rest in the little cemetery at that place. "Old Man Reed" as he was familiarly called was well known to every one along the Ridge as he made a business of canvassing for every new household invention, and through him many useful and helpful articles were introduced into the homes. hile Mrs. MacMurray did not find many of the old friends she was really delighted to find one who remembered her and her people "Old Smiley", the only Chinaman in this part of the county, was quite delighted to have a chat with her. This old Chinese, who years ago used to make a weekly trip from San Juan to French Corral peddling or selling lottery tickets, was well known to everyone on the San Juan Ridge. He must now be past 80 years of age, but he has a wonderful memory, and he has become quite Americanized. He never fails to attend the funeral of any old-time residenWt, and always presents his floral offering. It is really quite pathetic to see the old man place a beautiful jonquil on the casket or grave of the departed and his sorrow is really quite sincere.

A picnic party hiked to Rices' Crossing Wednesday, to enjoy a dinner in the woods and a swim in the river. Mrs. E. Sutherland and daughter, Barbara, and two boys, Dean and Richrd, and Miss Marian Hammerschite, Miss Louise Moulton, Irene, Harry and Billy Browning formed the party. Despite sunburned arms, and shoulders, and pedal weariness, they reported a "splen did time" upon their return in the evening. Oh! for the spirit of youth!

ROSEVILLE COUNCIL IS SWEARING OFF ON BILLS

Effect of the county grand jury's recent report found its way into affairs of the city of Roseville when the City Council, meeting Wednesday night, faced the problem of allowing a small bill for goods purchased from one of the councilmen.

Councilman C. A. McRae opposed payment of the claim. Councilman H. T. Miller, who presented the bill, said that he would withdraw it, but before he could do so other members of the board voted to allow it.

At the same time the vote was taken, it was agreed by members of the board that no more such bills will be allowed. Councilman McRae said the transaction is illegal and declared his belief that any member countenancing it could be held responsible.

The recent grand jury report severely criticises memebers of the Board of Supervisors who transacted business with the county. In city buiness and also in local school affairs articles have at various times been bought from members of the boad, the transaction being governed by convenience.—Roseville Tribune.

George Van Gordon, one of the remaining survivors of the Donner Party again visited the scene at Donner Lake last week in company with his wife. He was a member of the original party of 300 and was two years of age at that time. He was in the Breen contingent which made the trip over the summit safely while the second section under Donner suffered the tragedy in the storm.

Mrs. Otis V. Sweetland, a former resident of this city, and now of Yuba City is home from a hosptal in Marysville. She is recovering from a recent serious illness.

Miss Ada Pierce left recently for Sacramento where she has accepted a position with a produce company.

Mr. and Mrs J.. K. Ross, formerly of Nevada City, are here for a short stay.

Mrs. J. W. Jennings is here visiting her former home, for a time.

Mr. and Mrs. Wm. Casci returned to their home in Bakersfield after a visit with his parents at Scotts Flat Dam.

A new sign has been placed in front of the Foley store.

Frank J. Brophy of Berkeley came up during the week to visit with his wife at the home of her mother, Mrs. C. J. English, at North Columbia. His wife came as far as Nevada City to meet him.

Mrs. Emily Craig and son of Orland visited her cousin, Mrs. Robert Ewing, at Willow Valley last week.

NEVADA CITY ASSAY & REFINING OFFICE
E. J. N. Ott, Proprietor

Practical mining tests from 25 to 1000 pounds, giving the free gold percentage of sulphurets, value of sulphurets, value of sulphurets and values of tailings.

Assays made for gold, silver, lead and copper. Mail order check work promptly attended to. Agent for New York-California Underwriters, Westchester and Capital of California Fire Insurances companies. Also automobile insurance.

When school bells are ringing—*instant* hot water helps get the children off

—saves 4 to 6 hours each week in housework

When there are little faces to be washed, clean clothes to be put on and all before the school bell rings, then an abundant supply of hot water saves mother's time—if she has hot water without bother or waiting.

There is no need of watching the automatic gas water heater. You can have plenty of hot water day and night. It costs less than one-fifth of a cent per gallon—the lowest cost of any method for heating water in the home.

Details on replacing your old water heater with a new automatic gas water heater can be obtained at a dealer's store or by telephoning our local office.

Mrs. Lou Davison and daughter, Miss Audrey, are home from a visit in the bay district. While there they visited Miss Erla Davison and other relatives.

ODD FELLOWS BUY MASON HALL INTEREST

With the purchase by the Odd Fellows of the Masonic interest in the joint hall at Grass Valley, the way is now clear for the square and compass bretheren of that hustling metropolis to engage in a building campaign at a late date. Ever since the destructive fire of last year matters of the ownership of the hall have been negotiated with the result that the Odd Fellows become the sole owners of the building which has served the two orders for the past 64 years. Pending the erection of a new building, the Masons will rent from the three linkers.

Walter Warnecke is home from a visit with relatives in Oakland.

Fred Grover of San Francisco is here visiting his parents, Mr. and Mrs. Newton Grover.

CAMPTONVILLE EXPECTS FINE TIME DEDICATION

CAMPTONVILLE, August 10,—The community is looking forward to the dedication of the Pelton Monument which is to take place on August 31st. A special ceremony has been prepared and the Grand Lodge Free and Accepted Masons will convene here, Past Grand Master Judge George L. Jones officiating. A platform will be erected at the mounment, and the piano moved there for musical numbers. The committee in charge is endeavoring to obtain Judge Raglan Tuttle of Nevada county to deliver the oration.

Following the ceremony that evening, a big benefit dance will be staged at the Masonic Hall, at which time a record breaking crowd is expected. People come from far and near to attend Camptonville dances, where excellent music prevails and the well far famed midnight supper gives everyone all they want and can eat. This even comes over the Labor day week end hodilay and many former residents will be back for this occasion.

Word was received here a few days ago of the death of David Marquardt, which happened at Seattle, Washington, on July 8th. No particulars are at hand other than he died very suddenly in an ambulance following a presumable heart attack. Deceased was born and raised at Mill Creek, spending a good part of his life in this section, and was well known in these parts. He served in the World War, and after that went to the north where he has been during the past few years. He was 47 years of age. The following relatives survive: parents, Mr. and Mrs. Joseph Sommers, sisters ,Mrs. Dave Humphrey, Mrs. C. E. Kennady, Mrs. C. W. Turner, and Mrs. Reuben Halkyard, and a brother, Louie Marquardt, half sisters, Mrs. Abner Kennady, Mrs. Gertrude Sams, and Mrs. Irving Roberts, half brothers, Albert C. Sommers, Frank Sommers.

Roy Clark of Dobbins was in town Friday.

T. E. Mason of Nevada City was in town Friday.

Pete Cassano of the bay district is visiting relatives here.

Mr. and Mrs. Louis Joubert arrived a few days ago from Berkeley on a short visit with relatives at Oak Valley.

Mr. and Mrs. Samuel F. Price, and daughter, Miss Elsie A. Price, recently moved from Sacramento to Berkeley, where Miss Elsie is a sthdent at the University of California.

Mrs. Frank Bobb and two daughters, enroute to visit her husband at Bald Top Mountain, had the misfortune of breaking down at Oak Valley. The car was towed to the Lang Garage and repairs made.

Mrs. Lester M. Jaynes arrived on Saturday's stage from Nevada City on a visit with relatives here.

A party consisting of Mr. and Mrs. Walter Greer, Mr. and Mrs. F. S. Labadie, Mrs. Kate Hope Livingston, Lola Labadie, and Ross C. Zaring motored to Bullards Bar Saturday evening to catfish.

William A. Lang, proprietor of the Lang Garage, motored to the Cornish Ranch Sunday to get a broken down truck.

Mr. and Mrs. Ed Lang left Friday for a business trip to Sacramento and Watsonville.

Miss Bernice Gray returned Thursday from a few day's visit at Downieville.

Clarence Deal of Forest passed through town Saturday.

Cold Baths

A friend, in the hospital last winter, found his recovery hastened by fresh air which was admitted to his room despite zero temperature. If the window remained closed long he felt "wilted." The fresh air was a tonic. Fortunately he had been prepared to stand cold temperatures by daily cold plunges. The frequent bath is something which the Western world learned from the Far East. India taught the British conquerors the value of the daily bath. Oriental peoples had been taking daily baths for a thousand years before Perry visited Japan.—Grove Patterson, in the Mobile Register.

Fish Armed With Knives

A "physician" fish, accoutered with razor-edged lances which are used to wound, however, instead of heal, has been listed with the Smithsonian institution's vast Philippine collection It is known as the surgeon fish On each side of its tail are sharp pieces of cartilage, so keen that they are veritable knives. In an instant they can be made to stand out from the body for a ripping blow. A slight slap from the tail is sufficient to cut a man's hand to the bone. Many of the lances are poisoned. The surgeon fish is confined to the tropical parts of the Indian and Pacific oceans.

PERSONAL MENTION

N. B. Bishop of French Corral was a Friday business visitor.

Mr. and Mrs. A. Reynolds visited in Sebastopol with relatives.

Henry Meyers of Tyler was a recent visitor in Neavda City.

Mrs. Charles Becker and children of Oakland visited her sister, Mrs. Kenneth Arbogast, and family for a tme. She also visited her old home in North Columbia. Before returning home they visited relatives in Hammonton.

Famous Old Canal

The original canal connecting St Marys falls and rapids was a crude affair made by trappers and traders in 1797-98 to connect with the North west country in order to permit them to compete in the transportation of furs with the Hudson's Bay company. This work was practically destroyed by United States troops in 1814 during the war with Great Britain, and in 1853 a system of canals was begun by the state of Michigan within the United States borders to connect Lakes Superior and Huron This cost $1,000,000 and had two locks. It was enlarged in 1870 in co-operation with the United States government, and in 1882 Michigan relinquished control to the federal government.

H. L. Ocheltree , of Marysville, took a momentary doze while on the South Yuba grade early last week and his truck took a header for the river hundreds of feet below. An oak tree interposed itself and saved his life.

F. M. Miller of Graniteville was in Nevada City during last week.

Mike Denike of North San Juan was in Nevada City last week.

Henry Huckins of North San Juan was a Nevada City visitor recently.

Mr. and Mrs. John H. Hitchings and Mrs. Marie Hitchings, of Berkeley are here visiting relatives. They are former residents.

LEGAL NOTICE

The California Debris Commission will hold a public hearing at 10.00 A. M. August 23, 1929, in Room 728 Wells Fargo Bldg., San Francisco, California, to receive protests against granting the application of the Nevada Irrigation District, to use its Deer Creek diversion dam, located on Deer Creek near Scott's Flat, and its Van Giesen diversion dam located on Bear River near the Combie crossing, for storage of hydraulic mine debris tailings. The Nevada Irrigation District proposes to sell debris storage space to such hydraulic mines in the drainage areas above the dams, as desire to purchase it.

Publication Dates, August 12, 19, 1929.

PRODUCTION OF METALLIC CADMIUM IN 1928

The production of metallic cadmium in the United States in 1928 amounted to 1,875,896 pounds, valued at $1,144,297, as reported by producers of the United States Bureau of Mines, Department of Commerce. This is an increase of 75 per cent in quantity over the production of 1,074,654 pounds in 1927 There were 233,101 pounds of cadmium, valued at $128,901, imported into the United States during 1928, compared with 22,400 pounds, valued at $13,172 in 1927. No imports of this metal were recorded for 1926.

In addition to metallic cadmium, domestic manufacturers reported some production of the following cadmium compounds in 1928: Cadmium sulphide, cadmium sulphate, cadmium hydrate, cadmium oxide, and cadmium lithopne. The estimated cadmium content of cadmium compounds produced was 240,000 pounds, valued at $191,051, in 1927.

TOGNARELLI REBUILDING

John Tognarelli, who recently purchased the Costello & Jepson place of business has been doing considerable remodeling in the interior of the building. The former restaurant room in the front corner has been taken out making the main room much larger.

Mr. and Mrs. John Ferry of San Francisco, who have spent some time visiting relatives in Nevada City are now at Lake Almanor for a short stay. They were accompanied by Misses Elise and Adele Hieronimous and T. Demate.

Mr. and Mrs. O. E. Schiffner are spending their vacation in San Francisco and other places of interest.

Mrs. May Colvin and Mrs. Gage of Grass Valley visited relatives and friends in Nevada City during last week.

Miss Doris Smith, graduate of local schools and San Jose normal, has been engged to teach the newly organized schoo l t Central School District.

Homer J. Gould of Downieville was a Nevada City visitor recently.

NOTED CLUB WOMAN MAKES VISIT HERE

Mrs. Edward J. Wales, one of California's leading club women and for a long time prominently affiliated with the work of the State Federation of Women's Clubs, has been a visitor at Lake Olympia for the past two weeks. The passing of her loved husband, Edward J. Wales, a native of Grass Valley and for forty five years connected with the Anglo London Paris National Bank of San Francisco, was but recently. He was the only brother of Mrs. Emily Trathen, Mrs. Horace C. Sexton, and Mrs. Carolyn Williams, now of San Francisco.

Mrs. Wales was recording secretary of the state federation under Dr. Barian Bertola and has recently retired after serving as auditor under Mrs. W. W. Green, the recent state president. She was also advertising manager of the federation publication, "The Federation News", for four years.

Mr. Wales' parents, Mr. and Mrs. Thomas Waes, owned a shoe store on Mill street in Grass Valley at one time. Mr. Thomas Wales was one of the '49ers.

POORMAN'S ARE VISITORS

Edward Poorman and Mrs. Margaret Poorman were here from San Jacinto the past week while on their yearly jaunt to this section. The Poormans have extensive mining properties on the Middle Yuba river below Footes Crossing which are open to responsible people for placer mining. Mrs. Poorman was one of the original '49ers coming across the plains in an ox cart when but an infant. The party came into California by way of the Henness Pass and the family settled on Webber creek. She recalls that an epidemic of cholera broke out and that to dispose of the bodies the people rolled them in blankets and buried them. It rained steadily for fourteen days and fourteen nights and all their belongings floated out of the tents in which they were living.

Two years ago Mrs. Porman made her first trip over the Henness Pass again after a span of eighty years, but this time in a modern machine.

Edward Porman, who has been one of those actively promoting the community pageant "Ramona" in San Jacinto and Hemet, is now general manager of the same since the death of Garnet Holme, its author, who left it to the communities at his death. Mr. Poorman plays the part of Juan Canito. Helen Hunt Jackson, author of "Ramona", lived at San Jacinto while writing a major portion of the book, "Ramona" living in that vicinty at one time.

SPORTSMEN DOVE STEW

The dove stew of the Grass Valley Sportsmen Club which abandoned a number of years ago is to be revived next month according to information from Charles H. Barker. Dove season opens September 22nd.

Edward Ninnis who farmerly resided here, passed away recently at San Diego. Of late years he had been connected with the Treadwell mines in Alaska.

MRS. MOLLIE RICHARDS CROSSES INTO BEYOND

Mrs. John H. Richards, nee Mollie Watson, and mother of Thomas W. Rchards of this city, and Alvin C. Richads of Berkeley, passed away Wednesday after a lingering illness. Funeral services were held from the late home Friday afternocn, attended by a large concourse of sorrowing friends.

Deceased was a native of Forest and came here when but a youngster, makng her home since tha time. She was a charter member and the frst noble grand of Neva Rebekah Lodge, in which order she always took an active nterest. She was also a member of Laurel Parlor, Native Daughters.

Mrs. Rrchards was a highly loved and respected woman and the sympathy of the entire communty goes out to the bereaved family.

COURT HOUSE LIGHTED

Flood lighting from a seacrlight placed at the south west corner of the grounds brings out the south and east facades of the court house in bold relief for a peroid of three hours nightly. The supervisors arranged the lighting feature and the cost of its operation is being cared for by the chamber of commerce. The sight is a striking one from the nearby heights to the south and east.

Mrs. Arthur W. Hoge and Mr. A. M. Hoge have eturned from a week spent at Palo Alto.

Willam Penrose is here from Reno to visit his paents, Mr. and Mrs. Thomas Penrose.

Mr. and Mrs. E. Merritt Rector and family are home from a vacation trip to th Yosemite Valley.

Mrs. Mary Hallett has been entertaining Mrs. Rarry Quigley and daughters of Richmond.

THE BELL SYSTEM IS BUILDING AHEAD OF THE GROWTH OF THE COUNTRY

This is the telephone's job and goal

THE United States is developing a new civilization. The telephone is an indispensable element in it. The Bell System is building ahead of the growth of this civilization. In 1929 the telephone budget for land and buildings is 54 million dollars, with new buildings rising in 200 cities. New equipment for central offices will cost 142 millions; exchange lines 120 millions; toll lines 119 millions.

The Bell System's total expenditure for plant and service improvements this year will be 559 million dollars.

This outlay is required because the telephone is a universal servant of this democracy. Business uses it to create more prosperity. Homes use it for comfort and protection, for keeping friendships alive and enriching life. Its general use enables each personality to extend itself without regard to distance.

The telephone ideal is that anyone, anywhere, shall be able to talk quickly and at reasonable cost with anyone, anywhere else. There is no standing still in the Bell System.

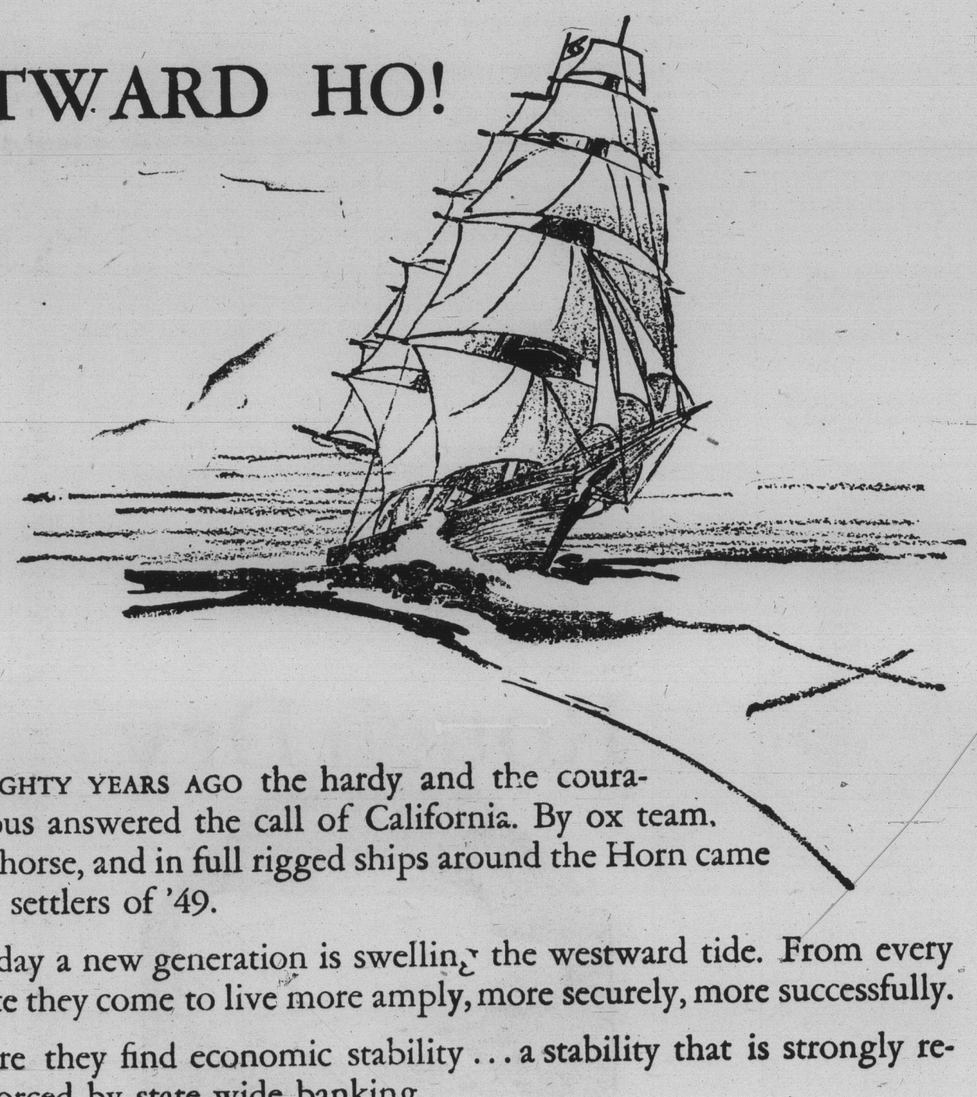
BELL SYSTEM
One Policy - One System - Universal Service

WESTWARD HO!



EIGHTY YEARS AGO the hardy and the courageous answered the call of California. By ox team, on horse, and in full rigged ships around the Horn came the settlers of '49.

Today a new generation is swelling the westward tide. From every state they come to live more amply, more securely, more successfully.

Here they find economic stability ... a stability that is strongly reinforced by state-wide banking.

Here they find ... in the Bank of America ... an institution that since 1860 has grown with California. Here they find an especial welcome for the newcomer ... a stranger today, a neighbor tomorrow.

The new customers of this bank, joining the ranks of loyal old customers, are the best evidence of its progressive principles and practice.

In Cairo ... London ... Rome

Imagine being able to draw money in London, Paris, Rome, Cairo or any other foreign city you visit, as easily as you cash your personal check in your home bank!

This is one of the advantages you have when you carry a Bank of America Travelers' Letter of Credit.
